Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of solid tumors in Paper No. 6 is acknowledged. The traversal is on the ground(s) that it is not an undue burden on the examiner to search all of the claimed species. This is not found persuasive because applicant has provided no evidence or identified such evidence of record showing the species to be obvious variants or clearly admit on the record that this is the case as stated in the previous Office action.

Claims 10 and 11 remain withdrawn from further consideration by the examiner as being drawn to a non elected invention.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 2 and 4-9 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Watkins, Jr. et al. taken with Green et al. for the reasons of record and for the reasons which follow.

Applicant has argued that Watkins teaches treating cells outside of the body and then injecting them into a patient. Applicant argues that it would not have been obvious to practice the claimed invention.

Applicant has claimed a method for treating a human with a neoplasm, comprising administering to the human with the neoplasm an effective amount of neurominidase. Watkins clearly teaches that neuraminidase is administered to humans with a neoplasm. This is all the claim requires. Thus, the claimed invention is obvious over the cited references.

Green was cited only to show that phenol-saline is a common physiologically-acceptable carrier for compositions, such as finely divided microparticles of tyrosine. It was cited as a general teaching to show the wide use of phenol saline as a solution for injection of biological materials into the body.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
